

Example Document

This document will demonstrate how to include a PlantUML use case diagram in an AsciiDoc document.

```
@startuml

title Example Use Case Diagram

Actor User

User -> (Login)
User -> (View Products)
User -> (Add to Cart)
User -> (Checkout)

@enduml
```

This diagram shows the basic steps involved in a typical online shopping process. The user starts by logging in, then views the products, adds them to their cart, and finally checks out.
